(5) Public Holiday falling within annual leave

- (a) If any of the paid public holidays referred to in clause 9.6 of this Division falls on a working day within the period of leave of an employee, the employer shall either-

- (i) add one working day on full pay to the said period of leave in respect of each such paid public holiday; or

- (d) An employer may reduce an employee's entitlement to annual leave by the number of days of occasional leave on full pay granted to the employee at the employee's request in that leave cycle.

For the purposes of this sub-clause, "span" means the number of shifts normally worked by the employee in a week.

Note: Accrued leave pay is calculated by multiplying three weeks' wages by the fraction of a year worked, thus –

for six months' employment, leave pay is $\frac{1}{2}$ x times three weeks' pay;

for 13 weeks' employment, leave pay is $\frac{1}{4}$ x times three weeks' pay;

for five weeks' employment, leave pay is $\frac{5}{52}$ x three weeks' pay.

To arrive at three weeks' pay for a *monthly-paid* employee, multiply the monthly pay by 9/13. Thus for a monthly-paid employee the leave accrued in –

six months is $\frac{1}{2} \times \frac{9}{13} \times$ one month's pay;

13 weeks is $\frac{1}{4} \times \frac{9}{13} \times$ one month's pay;

five weeks is $\frac{5}{52} \times \frac{9}{13} \times$ one month's pay.

- (b) In the case of a motor vehicle sales person and supply sales person accrued leave pay shall be calculated on the basic wage plus average commission on sales earned over the preceding 52 weeks, or accrued in respect of the number of complete weeks actually worked should the latter period be less than 52 weeks.
- (c) Accrued leave pay held by an employer on behalf of an employee who for health reasons or any other incapacity has become unable to continue with his occupation shall become payable immediately to the employee, and accrued leave moneys due to an employee who dies in the course of his employment shall become payable immediately to his estate.

Note: The calculation is based on 52 or 53 (weeks), whichever is applicable.
