

DATED: 21 AUGUST 2026

CIRCULAR NO: 2026/00044

TO: ALL PARTICIPANTS IN THE MOTOR INDUSTRY

NOTICE: MIBCO AT AUTOMECHANIKA JOHANNESBURG 2026

The Motor Industry Bargaining Council (MIBCO) is registered with the Registrar of Employment and Labour Relations as a bargaining council in terms of Section 29(15)(a) of the Labour Relations Act, No. 66 of 1995. MIBCO's registered scope encompasses the Automotive Retail and Automotive Component Manufacturing sectors within the South African Motor Industry.

Driven by our mission to create and maintain industrial peace and stability through collective bargaining, the settlement of labour disputes, and the provision of social benefits for all employers and employees falling within the scope of the Motor Industry, MIBCO plays a pivotal role in ensuring the effective regulation and orderly functioning of the industry. This is achieved through the administration of our Collective Agreements and the application of relevant labour legislation.

MIBCO's Collective Agreements are:

- Established through collective bargaining between recognised Employer and Employee Bodies within the Motor Industry;
- Promulgated by the Department of Employment and Labour; and
- Extended to, and binding upon, all employers and employees operating within the Motor Industry throughout the Republic of South Africa.

Guided by our motto, "Good to Great Together," MIBCO is proud to be an affiliated partner of Automechanika Johannesburg 2026, taking place from 27 to 29 October 2026 at the Gallagher Convention Centre, Midrand.

As part of our participation, MIBCO will have an exhibition stand where stakeholders will have the opportunity to engage directly with our team. Our representatives will be available to assist employers and employees with enquiries, provide guidance on industry-related matters, and facilitate the registration of new entrants to the Motor Industry.

We encourage all stakeholders to visit the MIBCO stand and take advantage of the Automechanika platform to engage with us on solutions that promote compliance with the

regulations governing the Motor Industry. The event also provides an excellent opportunity to network with industry professionals, explore innovative products and services, and gain valuable insights into developments shaping the future of the automotive sector.

We look forward to welcoming you to our stand.
